Event: Workshop on Drug Prevention, cyber security Basic life Safety and First aid in protecting women

Prevention programs often are designed to enhance "protective factors" and to reduce "risk factors." Protective factors are those associated with *reduced* potential for drug use. Risk factors are those that make drug use *more* likely. Speakers assert that for individuals who begin using illicit substances at an early age, several risk factors may increase the likelihood of continued and problematic use in later ages, when substance-related crime becomes much more likely. Risk factors include: negative peer associations, unrealistic beliefs about the prevalence of illicit drug consumption, inconsistent or abusive parenting, school exclusion, and feelings of low self worth. Mr.Arun Kumar, Project Manager of Nirvana Foundation has also demonstrated that many of the same risk and protective factors apply to other behaviors such as youth violence, delinquency, school dropout, risky sexual behaviors, and teen pregnancy.

Sr. Jyoti Sankharia

Responding to these risky behaviors before they become problematic can be difficult. Furthermore, it is important to understand that risk factors do not, in and of themselves, determine drug use and abuse. Dr. Geetha Professor of Vellore Institute of Technology shared multiple risk factors have found that risk factors have a cumulative effect – i.e., the more risk factors a youth is exposed to, the greater the likelihood that he or she will engage in delinquent or violent behavior. She also gave reference towards Casestudies that a 10-year-old exposed to six or more risk factors is ten times more likely to be violent by age 18 as a child of the same age who is exposed to only one factor. Nearly 215 participated in this program organized by Lt.Dr.E.Anitha Alice, NCC Officer in collaboration with Nirvanan Foundation Chennai.

It is a dream for any NCC Cadet to march at Rajpath and there are only a few lucky ones who get to experience that. For that, even if we need to lost out on our sleep for six months. I think it is definitely worth it said by our two cadet who took part in PM Rally Cadet L.Celin II B.Com and A.Deepika II B.A. History.

For some taking part in the parade is fulfilling their parents dream and for others, the Rajpath march has been their goal since the day they joined the NCC.“ Not everyone gets the

chance to be where we are. You need to be a step ahead in terms of drill, presentation and discipline because if you are a Rajpath cadet, then you are expected to be the best” shares Celin, a RDC Cadet from 1 (TN) Girls BN, NCC of Tamil Nadu, Andaman and Pondicherry Directorate.

Event : Motivational speech on Women Empowement

The purpose of this Programme was to uncover the role of empowering women and achieving gender equality in the sustainable development. PioletJosphine, First Women Piolet, Indigo Airlines addressed the role of women across different dimensions of sustainable development is less reflected in the country. The use of a women's labour force in the economic development the country is minimal. The political sphere of the country is, by and large, reserved for men alone. The place of women in society is also relegated to contributing minimally to the social development of the country. In addition, women rights are not properly being protected in order for women to participate in various the issues of their country but are subjected to abysmal violations. Moreover, women are highly affected by environmental problems, and less emphasis is given to their participation in protecting the environment. She also stressed on the e fact that women constitute half the entire population of the country makes empowering them to be an active part of all development initiatives in the country a compelling circumstance. Nearly 264 Participated.
