Auxilium College (Autonomous) and NSF are referred to collectively, as “Parties” or individually as “Party.”

## 1. Purpose

The Parties recognize the benefits to be derived from increased collaboration, cooperation and interaction for the further research and development activities on nature conservation and environmental protection (hereafter, collectively referred to as the “Field”).

The purpose of this MOU is to define the areas for fundamental, academic research in which the Parties desire to work together in the future for their mutual benefit to foster a collaborative framework between Auxilium College (Autonomous) and NSF in the Field with a view to benefiting from each other’s initiatives and working procedures and to support collaboration among the researchers associated with both Parties.

## 2. Scope

This MOU sets forth the intentions of the Parties for increased collaboration, cooperation and interaction and does not create any legally binding commitments. If the Parties later agree to undertake specific joint projects with legally binding obligations, they will develop separate written agreements for such projects, setting out each Party’s contributions, deliverables, and budgets.

The parties collaborate, cooperate and interact to achieve the following scopes of this MOU.
