This learner has not verified their identity. The certificate and transcript do not imply the award of credit or the conferment of a qualification from Monash University.

P Lalithapriya

has completed the following course:

THE SCIENCE OF MEDICINES MONASH UNIVERSITY

This online course explored the science of key medicines used to manage heart disease, depression, diabetes, pain control and smoking cessation.

STUDY REQUIREMENT

6 weeks, 3 hours per week

LEARNING OUTCOMES

- Describe the physiological impact of common medical conditions on the human body.
- Investigate the chemical structures of modern medicines.
- Explain how the chemical structures of medicines make them effective in treating specific medical conditions (pharmacology).
- Explore how the design, delivery and dosage of medicines influence their effectiveness (pharmaceutics).
- Discuss the human aspects of taking medicines, including side effects and addiction.

SYLLABUS

- The composition and roles of different members of a patient's healthcare team.
- An overview of how the human body works and the key systems within it.
- An overview of the fundamentals of chemistry: elements, bonds, molecular structures and intermolecular interaction.
- The importance of the chemical design of medicines to their treatment of specific conditions (pharmacology).
- The importance of the design, delivery and dosage of medicines to their effectiveness (pharmaceutics).
- Diabetes and how hypoglycaemics work to treat it.

- Heart disease and how atorvastatin works to treat it.
- Pain and how morphine works to treat it.
- Smoking and how treatments for nicotine addiction work.
- Depression and how antidepressants work to treat it.

Certificate of Achievement

Jayasri G

has completed the following course:

PROTECTING CHILDREN DURING THE COVID-19 PANDEMIC: ADAPTING CHILD PROTECTION PROGRAMMING **THE ALLIANCE FOR CHILD PROTECTION IN HUMANITARIAN ACTION**

The course covered topics including: the impact of public health measures on child protection services for children, risk and protective factors for children during the pandemic, the application of CPMS and guiding principles, suggestions on how to adapt child protection strategies working across sectors and with governments, the centrality of child safeguarding, social service workforce well-being, ensuring child participation and some considerations around working remotely with teams.

STUDY REQUIREMENT

6 weeks, 3 hours per week

LEARNING OUTCOMES

- Assess the context set through public health measures and elaborate on how this affects protective and risk factors for children in preparedness, response, transition and recovery to COVID-19
- Describe the main child protection risks during the COVID-19 pandemic in your context through a socioecological and developmental lens
- Explain ways to adapt child protection prevention and response programming in line with CPMS principles and standards
- Describe how to jointly implement with other sectors to protect children
- Identify key actions to support risk informed programming and contribute to system strengthening in future shock and health pandemics

SYLLABUS

- How the COVID-19 pandemic is affecting children, families and communities' lives and the potential medium-long term impact of the pandemic
- What actions you can take to adapt ongoing child protection prevention and response programming to the context of COVID-19 pandemic in line with CRC and CPMS principles and standards
- How you can collaborate with other sectors to promote children's protection and well-being in the context of COVID-19
- The experience of other child protection practitioners in a variety of contexts affected by the COVID-19 pandemic

Certificate of Achievement

Pavithra. J

has completed the following course:

ENGLISH FOR HEALTHCARE
KING'S COLLEGE LONDON

This online course explored language and communication skills relevant for a career in healthcare, and how to use these skills in different healthcare settings and professional situations.

4 weeks, 3 hours per week

Craig Davis
EAP Tutor, King's Foundations
King's College London

Sophie Hauser
EAP Tutor, King's Foundations

Pavithra. J

has completed the following course:

ENGLISH FOR HEALTHCARE KING'S COLLEGE LONDON

This course introduced new terminology, vocabulary and grammar relevant to healthcare. Throughout the course, participants were encouraged to reflect on their learning and to practice keeping a reflective journal. Participants practiced their listening skills with recordings of healthcare professionals and tested their knowledge by writing responses to discussion questions.

STUDY REQUIREMENT

4 weeks, 3 hours per week

LEARNING OUTCOMES

- Apply language skills to a range of healthcare contexts and situations. For example: using adjectives to describe symptoms, using vocabulary related to problems/solutions and causes/effects
- Interpret different genres typical of healthcare, including instructions, notes, reflective journals, registration forms
- Explore new vocabulary and terminology relating to healthcare
- Identify suitable communication modes for different professional situations, for example when giving instructions to patients
- Reflect on your learning, and practice writing a reflective journal. Apply language skills to evaluate your experiences
- Collect and record medical information by reading and listening for specific information

SYLLABUS

- Working and learning in the hospital
- Experiences of patients
- Symptoms and diagnoses
- Taking notes and clear communication

- Working in different healthcare contexts: Caring for patients in the home; Healthcare interventions in the community.
- How to write reflectively

Congratulations

BASIC ENGLISH 1: ELEMENTARY
KING'S COLLEGE LONDON

This course helped you develop your use of English in a range of everyday situations and built your confidence by improving your listening skills. You've heard people talking in a number of different situations and have had an opportunity to review the language through a series of quizzes.

4 weeks, 4 hours per week

Moia Rowsome
Instructional Designer
King's College London

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This learner has not verified their identity. The certificate and transcript do not imply the award of credit or the conferment of a qualification from King's College London.

Tamara Tonga P.

has completed the following course:

BASIC ENGLISH 1: ELEMENTARY **KING'S COLLEGE LONDON**

This course helped you develop your use of English in a range of everyday situations and built your confidence by improving your listening skills. You've heard people talking in a number of different situations and have had an opportunity to review the language through a series of quizzes.

STUDY REQUIREMENT

4 weeks, 4 hours per week

LEARNING OUTCOMES

- Identify language used in everyday situations, such as studying, communicating with classmates, and talking about work
- Develop confidence in key language items useful in a range of different scenarios
- Apply language skills for everyday conversations
- Demonstrate understanding of relevant language that can help the learner progress along the path to studying at a university

SYLLABUS

- Language to introduce yourself
- Describing how you are feeling
- Asking simple questions
- Talking about your friends and family, and describing their personalities
- Talking about work and jobs
- Saying what you do and don't like
- Talking about your hobbies

VOICES OF ***SOCIAL CHANGE***

CERTIFICATE OF COMPLETION

May 2020

This certificate is awarded to

Tamara Tonga P.

*For the outstanding completion of the **Voices of Social Change** online short course.
The most significant transformations often start with small individual actions.*

Certificate of Achievement

Jaojianlu Mercy Phaomei

has completed the following course:

HEALTH SYSTEMS STRENGTHENING

THE UNIVERSITY OF MELBOURNE , THE NOSSAL INSTITUTE FOR GLOBAL HEALTH AND UNICEF

This online course explored health systems concepts, structure, function and approaches to strengthening health systems. Topics covered included health systems frameworks, equity in health, health financing, health workforce, supply chains, quality of care and managing mixed health systems.

8 weeks, 3 hours per week

Professor Barbara McPake
Director, Nossal Institute for Global Health
The University of Melbourne

Professor Stefan Swartling Peterson
Chief of Health and Associate Director, Programme
Division,
UNICEF

The Nossal Institute
for Global Health

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This learner has not verified their identity. The certificate and transcript do not imply the award of credit or the conferment of a qualification from The University of Melbourne , The Nossal Institute for Global Health and UNICEF.

Jaojianlu Mercy Phaomei

has completed the following course:

HEALTH SYSTEMS STRENGTHENING

THE UNIVERSITY OF MELBOURNE , THE NOSSAL INSTITUTE FOR
GLOBAL HEALTH AND UNICEF

70%
AVERAGE TEST
SCORE

This online course explored health systems concepts, structure, function and approaches to strengthening health systems. Topics covered included health systems frameworks, equity in health, health financing, health workforce, supply chains, quality of care and managing mixed health systems.

STUDY REQUIREMENT

8 weeks, 3 hours per week

LEARNING OUTCOMES

- Develop knowledge and skills in health systems strengthening (HSS), to improve outcomes for disadvantaged women and children.
- Apply complex systems thinking in the design and implementation of HSS interventions.
- Evaluate HSS interventions for their evidence base, sustainability and capacity to support universal health coverage.

SYLLABUS

- Health system structures, functions and components, and how they interact.
- How to use evidence, and analysis of inequity, to drive interventions to strengthen health systems.
- Strengthening health systems through action in areas such as health policy, financing, human resources, supply chain management, quality of care and private sector engagement.
- Using complex systems thinking to address health system problems.

Certificate of Achievement

Silpa V A

has completed the following course:

BASIC ENGLISH 1: ELEMENTARY
KING'S COLLEGE LONDON

This course helped you develop your use of English in a range of everyday situations and built your confidence by improving your listening skills. You've heard people talking in a number of different situations and have had an opportunity to review the language through a series of quizzes.

4 weeks, 4 hours per week

Moia Rowsome
Instructional Designer
King's College London

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This learner has not verified their identity. The certificate and transcript do not imply the award of credit or the conferment of a qualification from King's College London.

Silpa V A

has completed the following course:

BASIC ENGLISH 1: ELEMENTARY **KING'S COLLEGE LONDON**

This course helped you develop your use of English in a range of everyday situations and built your confidence by improving your listening skills. You've heard people talking in a number of different situations and have had an opportunity to review the language through a series of quizzes.

STUDY REQUIREMENT

4 weeks, 4 hours per week

LEARNING OUTCOMES

- Identify language used in everyday situations, such as studying, communicating with classmates, and talking about work
- Develop confidence in key language items useful in a range of different scenarios
- Apply language skills for everyday conversations
- Demonstrate understanding of relevant language that can help the learner progress along the path to studying at a university

SYLLABUS

- Language to introduce yourself
- Describing how you are feeling
- Asking simple questions
- Talking about your friends and family, and describing their personalities
- Talking about work and jobs
- Saying what you do and don't like
- Talking about your hobbies

Statement of participation

Sneha Sneha

has completed the free course including any mandatory tests for:

Histology, microscopy, anatomy and disease

This free 12-hour course introduced microscopy and histology.

Issue date: 1 August 2020

www.open.edu/openlearn

This statement does not imply the award of credit points nor the conferment of a University Qualification.
This statement confirms that this free course and all mandatory tests were passed by the learner.

Please go to the course on OpenLearn for full details:

<https://www.open.edu/openlearn/science-maths-technology/histology-microscopy-anatomy-and-disease/content-section-overview>

COURSE CODE: **OUFL_008**

Histology, microscopy, anatomy and disease

<https://www.open.edu/openlearn/science-maths-technology/histology-microscopy-anatomy-and-disease/content-section-overview>

Course summary

This free course, Histology, microscopy, anatomy and disease, will help you understand the basic principles of light microscopy, before introducing you to histology, concentrating on the structure, function and relationship of normal human tissues.

Learning outcomes

By completing this course, the learner should be able to:

- understand the basic principles of microscopy
- identify a number of the more common tissues from their histological appearance
- relate the structure of tissues seen under the microscope to their function
- identify gross abnormalities, such as neurodegeneration, inflammation and cancer.

Completed study

The learner has completed the following:

Week 1

Histology

Week 2

Tissues and cells

Week 3

Tissue structure and function

Week 4

Recognising disease
